

We, the undersigned Canadian live-action Showrunners and animation Executive Story Editors, stand in solidarity with the Writers Guild of Canada leadership and Bargaining Committee as they return to negotiations with the Canadian Media Producers Association.

To date, the CMPA has rejected proposals that are vital to the livelihood of Canadian screenwriters and the health of the industry.

We urge the CMPA to engage with our Bargaining Committee in a respectful and good faith effort to address the needs of writers and creators in a swiftly changing world.

The future of Canadian television affects us all.
